

A RETURN TO OUR ROOTS

Starting in the late 1960's and continuing into today, there has been a dramatic move of God's Spirit. As God was moving to restore His people physically back to the Land of Israel, so too He was moving spiritually in the hearts of many Jewish people. Thousands have been coming to believe in Yeshua and even forming their own Congregations where both Jewish and non-Jewish worship the Messiah in the fulfillment of their Jewish roots. These "Messianic Congregations" are characterized by a number of distinctive elements: worship in the Shabbat and other Jewish Biblical holidays, joyful Davidic worship with dance and many other customs that are consistent with the Scriptures. What a wonderful way this has been for both Jewish and non-Jewish believers in Yeshua to express their faith and heritage. Many non-Jews have found special fulfillment in the Messianic Congregation, since they too are grafted into "the rich root of the olive tree" of this Jewish Biblical heritage (Romans 11:17 ff). Together we are returning to our roots through Yeshua the Messiah.
